

Trim frame for 1 element nickel Simon 27

REF. 27961-31

BASIC INFORMATION

DESCRIPTION

The decorative frames of the Simon 27 series are presented in bold and vivid colours. This situation makes them the perfect solution for rooms with the most modern and modern decorations, all this without losing their innovative design. In this range we have the Trim frame for an element in nickel finish, a 90x90 mm piece, suitable for recess both vertically and horizontally. Why is it one of the most sought-after decorative frames for both professionals and private individuals? Maybe because its installation can be carried out without the need for tools or prior knowledge. Its design allows it to withstand extreme environments with high humidity and temperatures, without affecting the qualities of its structure, which has been made with components of galvanized thermoplastic. But if anything differentiates this product from other similar products manufactured by the competition, it is its great value for money.
