

Plate for electronic rotary voltage regulator up to 500W/VA with light white Simon 75

REF. 75050-30

BASIC INFORMATION

DESCRIPTION

The set of mechanisms of the Simon 75 series offers a wide range of options to suitably equip each space. Diverse colors in the same frame will facilitate multiple combinations to form the ideal set that best adapts to the different needs of each house or company. With Simon, habitability always improves. The Plate for the electronic rotary voltage regulator up to 500W / VA with white light of the Simon 75 series perfectly meets this objective. With a signalling function, this plate stands out for its easy installation by surface mounting or flush mounting in the wall. Its intuitive functionality has made it one of the most demanded parts: Other features are that it is available in seven finishes, manufactured with thermoplastic materials and that its cleaning is simple to avoid oxidation and deterioration over time.

FINISH

White

MATERIAL

Thermostable

PACKAGING CONTENTS

Plate
