

Frame for 1 element garnet Simon 75

REF. 75610-37

BASIC INFORMATION

DESCRIPTION

The Simon 75 series has a great catalogue of frames that they bet by the functionality and a great durability in conditions very variables. This is the frame for an element in a daring, finished in garnet colour. Is perfect in different spaces in which the colour becomes the protagonist of exception. As far as the installation of this frame Simon 75, it is possible to recess it or to install it on surface-mounted. It is important to highlight its manufacturing material, as it brings maximum quality at the product, converting it in one of the safest frames on the market. It is a material with thermoplastic insulation, which does not require too maintenance. To increase its service life only need to clean it with a cloth moistened in water with soap, always avoiding the use of abrasive components such as chlorine chemical. This frame measures 88 x 88 millimetres and has a capacity variable, one to four elements in total. In the case of necessary, the frame requires the use of an intermediate piece.
