

Adjustable flexible connector

REF. 89940530-039

BASIC INFORMATION

DESCRIPTION

Each client to achieve the most appropriate indoor lighting for each situation and in each space is the objective with which Simon has developing its activity from 100 years ago. With this purpose designs all products and articles included in its wide catalogue. A good example of this is the flexible adjustable white in colour. Suitable for installing on a 3-phase rail spotlight, we are looking at a very resistant, which can be carried out in a simple way, comfortable and fast. This connector stands out for a design very innovative based on avant-garde lines that highlight on the other similar articles present on the market today. Also, the high temperatures and humidity does not deteriorate its structure thanks to the qualities of the components with which it has been manufactured.
