

Adaptor neutral white Simon 88

REF. 88077-30

BASIC INFORMATION

DESCRIPTION

We have a neutral adaptor of the series Simon 88, has a white finish in colour, although we can find in brown and in graphite. It is an individual version for one element with a size of 68,3 millimetres diameter. Made of thermoset, offers all the guarantees of resistance to the knocks, impacts and a great durability against the temperature changes more ends. When we talk about the series Simon 88 you do one of the most daring alternatives exceptional and, due to its shapes circular, thus breaking with the classic appearance square and giving to the whole series of a great personality. This series also stands out for its finishes in pure precious and a wide range of functions for those environments that need a product of design, functional and high quality. Simon 88 series is compatible with the Simon 77 mechanisms.
