

Flat voice and data plate without dust cover for 1 RJ45 3M® for 1 element white Simon 500 Cima

REF. 50011185-030

BASIC INFORMATION

DESCRIPTION

With dimensions of 50 x 50 x 11 mm, the Plate for voice and data plate without dust cover for an RJ45 connector from 3M for one element in white colour is one of the best-selling products of the Simon 500 Cima series. The quality and resistance of this piece has made it one of the most demanded elements for electrical and electronic installations of all types of buildings. This plate has a cabling 22-26 AWG and its structure has been made with halogen-free thermoplastic material. This is a laca very safe, as this guarantees no flame propagation in case of fire and the low toxicity in case of smoke. For all these reasons, together with its low price makes each day are more individuals and professionals from the sector bet for it.
