Double rocker for blinds mechanism with security latching aluminium Simon 82

REF. **82028-33**

BASIC INFORMATION

DESCRIPTION

With latching of security in aluminium colour, this double rocker for blind mechanism belongs to the Simon 82 series, has dimensions of 55x55 mm and is available in 6 different colours. It is recommended to select a frame of the same baseboard colour as the rocker selected to obtain a better effect. The rocker is ready to be installed by surface or flush mounting, so a few minutes will suffice for its placement. In case of doubt you can consult the technical information. It is made of galvanized thermoplastic, a material that resists extreme temperatures, although the ideal thing is to install the rocker in a space whose temperatures range between 5 and 40º. The piece also has a sign indicating the raising and lowering of blinds, respectively. In relation to its cleaning and maintenance, it is advisable to use a soft, dry cloth and avoid abrasive cloths and / or abrasive cleaners with chlorine.
