

Single rocker for two-pole switch with I/O symbol cold aluminium Simon 82 Detail

REF. 82031-93

BASIC INFORMATION

DESCRIPTION

In cold aluminium colour, we find this individual rocker for double-pole switch with I / O engraving and belonging to the Simon 82 Detail series, you can find it in the category ""rockers and covers"" next to a endless number of combinations available, the product is available in 6 finishes, we recommend choosing a frame with the same baseboard colour as the selected rocker. Its installation is very simple as it is suitable for surface mounting or flush mounting, its fabrication by means of metal components with thermoplastic insulation and halogen-free greatly facilitates the task of resisting temperatures between 5°C and 40°C maximum. The line element of the Simon 82 Detail range incorporates an I / O engraving (input - output) to differentiate the switch-off and switching on the component. When it is a new collection, we want to explain that it is a collection that is inspired by everything that changes the conception of things without needing to see them, inspired above all by simple details and taken care of in depth.

FINISH

Aluminium

MATERIAL

Plastic

PACKAGING CONTENTS

Single rocker and fastening bracket
