

Master switch key Simon iO with battery gloss black Simon 100

REF. 10002135-138

BASIC INFORMATION

DESCRIPTION

The master button Simon iO with battery is presented in black, with an elegant glossy finish. It is part of the wide range of Simon 100 products, and its manufacture is based on the use of metallic materials and components with thermoplastic insulation, free of halogens.

It is a type of product that works through the mechanism and for whose operation the Z-wave protocol has been used. Inside the packaging we can find the mechanisms in question, the cover and the instructions so that its placement is even easier and faster. In addition, the device is designed to reach temperatures that can oscillate without any inconvenience between 0 and 40 ° C, and can be able to withstand up to a maximum of -25 to 75 ° C during storage.

These types of parts are governed by the ETSI-300-220-2 v2.4.1 standard; EN 60669-2-5: 2015; EN 50581: 2012 // directive 2011/65 / UE RoHS + directive 2014/53 / UE RED + EN 50581: 2012 + EN 60669-2-5: 2016 + ETSI-300-220-2 v2.4.1, which complies perfectly, which makes it suitable for commercialisation within the EC market.

FINISH

Gloss black

COMPATIBILITY

Simon 100 frames
