BASIC INFORMATION

DESCRIPTION

Stamps are one of the most important parts of a house or company. Without them, what is outside the rooms could not indicate to those in the indoor their presence. To do this, we have the individual rocker with viewer, the Simon 82 series timbres. This product includes bell engraving and is available in six finishes, which allows you to choose the frame with the same baseboard colour as the rocker selected. Do not end here, but the advantages of this push-button switch rocker, whose dimensions are 55x55 mm, it stands out for the quality of the thermoplastic materials with which it has been manufactured. Cleaning can be done easily with a soft and dry cloth. And your price? It has no competition in the sector. For this reason it is one of the most demanded stamps.
