

Rocker for switches graphite Simon 27 Play

REF. 2720010-038

BASIC INFORMATION

DESCRIPTION

The control mechanisms are present in a multitude of public and private buildings: Schools, hotels, medical centres, official agency headquarters or offices buildings. For these systems are perfectly protected, thus avoiding any type of accident that can affect their correct operation, as well as the deterioration and oxidation of its structure with the passage of time, we have the Rocker for control mechanisms in graphite finish included in the Simon 27 Play series, It is a rocker sleeve in wide module with dimensions of 45x45 mm It has been manufactured with thermoplastic materials, a circumstance that is visible in the quality of the same. This reference only includes the embellishing rocker. To complete the function, a mechanism must be acquired and replace the included rocker. Its low price makes it the perfect rocker for all types of budgets.
