

Single rocker for double-pole switch with I/O symbol white Simon 75

REF. 75031-36

BASIC INFORMATION

DESCRIPTION

Of the Simon 75 series, this individual rocker for double-pole switch with white I / O engraving has 6 different finishes, the best thing would be to choose a frame with the same colour of the selected rocker. It can be installed by surface mounting or flush mounting. The most common temperature ranges of the individual rocker for double-pole switch is 5 to 40° with a limit ranging from -25 to 50°. This type of rocker applies the regulation UNE-EN 60669-1: 2002 + A1: 2003 + A2: 2009. The main manufacturing material is thermostable with a plastic bronze finish. The rocker for double-pole switch is a single version with one element, but no module. This model includes I / O engraving but does not include signaling function. It is recommended for a correct cleaning to use a soft cloth slightly moistened in soapy water to clean it properly.
