

Frame for 2 elements aluminium Simon 27 Scudo

REF. 2705620-033

BASIC INFORMATION

DESCRIPTION

This Frame is part of the Simon 27 Scudo series, has dimensions of 100 x 171 millimetres and is presented in a beautiful aluminium colour, so it is recommended to combine it with rockers and covers with the same finish. It is ideal for mechanisms that supplied energy to a total of 2 elements or electrical equipment, its installation is very simple and is to do so by recessing, presenting the option of installing it vertically or horizontally. Simon, with users and to facilitate the work, included in this product an Allen key. This frame stands out above all its high resistance and is that Simon works with the highest quality materials. In this case, the material of manufacture is the zamak, which is a zinc alloy with aluminium, magnesium and copper, which results in products highly resistant to multiplied its hardness. This contributes to extend the service life of the product, in addition to equip it with great security.

FINISH

Aluminium

COMPATIBILITY

Simon 27 mechanisms
