USB 2.0 connector type A for half element ivory Simon 27 Play

REF. **2701090-031**

BASIC INFORMATION

DESCRIPTION

A good connection is the beginning of all electronic mechanism, without it nothing is possible. If we are talking about sockets, TV / RJ / Multimedia we find the half element USB 2.0 type-A included in the Simon 27 Play series, with an ivory finish and dimensions of 22.5x45 mm, has a number of pins and wires of five and is available in boxes of one unit, being one of the most demanded in the market today. Due to its features, the maximum recommended length of cabling is 5 meters for low-speed devices and 2.2 meters for high-speed devices. It has a screw terminal connection and a type of insertion operation, being suitable both for surface or flush mounting, in addition, it supports a wire section from 0.2 to 0.5 mm Another advantage is the metal components with halogen-free insulation and thermoplastic trim with which it has been manufactured.

FINISH

Ivory
