

Interchangeable case for 2 half elements (1 element) American frame black Simon 27 Play

REF. 2700652-071

BASIC INFORMATION

DESCRIPTION

If you do not want to change the mechanism, but giving a new look at the already existing, this is its design. The interchangeable cover for American frame of Simon 27 Play, with the reference 2700652-071, in its range Colour and with a black finish, allows you to without the need of a new facilities to give life to its electrical mechanisms. Composed of two half elements that make up one, and with capacity for up to four half elements, its dimensions are 86x125mm. The design is especially recommended for rockers and covers in white finish, creating an interesting combination. Manufactured in thermoplastic, it is an element of great resistance. Adapts to mechanisms to be installed horizontally or vertically to be recessed in the wall. For its maintenance, it is only necessary to use a cloth slightly moistened in soapy water.
