

T connector with RH outside earth

REF. 89910838-039

BASIC INFORMATION

DESCRIPTION

The light has a direct relationship with the final result of a work or the success of a business. If it is operated can give the traste with months of effort personnel and economic. For this reason, the electrical installations, both in public and private buildings, are an essential element to be taken into account in all project masonry new or renovation projects. Having products and accessories of first quality is the best ally for nothing to fail, and the security is the maximum. The T with LH outdoor right of Simon has been manufactured with this purpose. Designed in black colour, its installation must be carried out on 3-phase rail. Thanks to its competitive price, a multitude of spaces such as hospitals, educational centres, University campuses and residential, hotels and holiday resorts or spaces for the development of activities sports and leisure counted as with this element integrated in their electrical installations.
