

Plate for R/TV inductive sockets white Simon 88

REF. 88053-30

BASIC INFORMATION

DESCRIPTION

This plate is the series of Simon products 88 and is specially designed for R-TV inductive sockets, and has dimensions of 68,3 millimetres. It comes in a classic colour white which guarantees its easy adaptation to any decorative style of the room of the home, office or place where it is placed. Even so, the product is available in a total of 3 different finishes so that the user can choose the one you like best or suits his needs. The thermoset material of which it is manufactured gives it great resistance to high and low temperatures ranging from -25 to 50 degrees centigrade, ensuring its optimal operation, in addition this material, it also gives a hardness extra that makes it to withstand easily challenges external as knocks or scratches. Its maintenance is very simple and consists of use only a cloth moistened in water with soap. It is not advisable to use any other type of cleaning product and less if it is abrasive or contains chlorine, because it could damage the structure.
