Frame for 1 element warm white Simon 82 Detail Original

REF. **8200610-029**

BASIC INFORMATION

DESCRIPTION

Passion for detail. Passion for the appearance. This could be a brief definition of this range of products belonging to the Simon 82 Detail series. Subtlety and simplicity to create an almost insulting elegance in any type of environments. This collection gives you the maximum variety in terms of frame types and colors. Frames in thousands of colors and designs, from some very daring to the traditional white frame in. On this occasion we bring you this frame for 1 element in warm white. If you intend to complete your installation with other Simon products, it is recommended to use the white finish for rockers and covers, although this is always to taste of each. A standard size and that is perfectly compatible with other products of other SImon series. And Simon thinks of everything - to improve your quality of life to the max.
