Single rocker combinable with viewers 82972 and 82982 cold aluminium Simon 82 Detail

REF. **82013-93**

BASIC INFORMATION

DESCRIPTION

When we prepare to install electrical systems in companies and homes, compatibility between the different elements that make up these circuits is very important to save us a lot of time and money in the search for different parts. Can be combined with the 82972 and 82982 visors, the individual Rocker in cold aluminium of the series Simon 82 Detail is perfect to avoid these problems, making it one of the most demanded keys to be used in large public and private buildings such as hospitals, schools, commercial establishments or headquarters of offices or official bodies. Available in six finishes, it is a neutral rocker push-button switch in individual version with dimensions of 55x55 mm, being suitable both for surface or flush mounting, manufactured with the best thermoplastic materials, this neutral rocker push-button switch is a sure bet for any electrical installation.
