Telephone socket with 6 pins RJ12 ivory Simon 31

REF. **31481-31**

BASIC INFORMATION

DESCRIPTION

This telephone socket with six RJ12 pins is the series of Simon products 31. It is presented in a beautiful ivory colour, that endow of great elegance and sophistication to any place of the room where it is. The clamping of the socket is screwed and its operation is very simple by insertion. It consists of two modules and supports a section of wire 0.3 to 0.5 millimetres. Its metal components with halogen-free insulation and thermoplastic trim contribute to their longer service life, as to ensure an optimal operation of the product, even low temperatures very high or low temperatures ranging from -25 to 50 degrees centigrade. This is because these high quality materials give resistance to the socket, but also provide an extra hardness, which means that support the best possible external harmful actions. Its maintenance is very simple and is performed just with a cloth slightly dampened with soap and water.
