Cover with safety device for French socket outlet aluminium Simon 82

REF. **82068-33**

BASIC INFORMATION

DESCRIPTION

There are different models of socket outlets. Not all are equal. Each one has its own features. That is why Simon creates elements and mechanisms for all of them. Format in French ground connection, we have the cover with safety device in aluminium of the series Simon 82. This piece stands out for the maximum quality of the materials with components of galvanized thermoplastic with which it has been manufactured and an unbeatable price by other companies of the sector. With dimensions of 55x55 mm, this cover can be chosen from seven different finishes, so it is advisable to choose the frame with the same baseboard colour as the selected cover. It is suitable both to be recessed and surface-mounted and its maintenance over time is very simple, as a soft and dry cloth is sufficient to clean its structure and prevent oxidation and loss of qualities.
