

Plate for R/TV+SAT inductive sockets graphite Simon 88 front view

REF. 88097-38

BASIC INFORMATION

DESCRIPTION

It is a plate designed for R/TV + SAT inductive sockets in graphite finish, corresponding to the Simon 88 series. This article is made of thermoset plastic and measures Ø 68.3 mm. By its manufacturing material, this individual plate enjoys extraordinary thermal resistance. The most convenient thing, however, is that it be installed in environments between 5 and 40°C temperature to keep it in perfect condition for longer. For cleaning, it is sufficient to use a soft cloth and slightly moisten it in water with soap. It is recommended not to use abrasive cleaners containing chlorine, as they could damage the piece. Simon 88 series is a collection that stands out for the originality of its mechanisms, which rupture with square forms conventional and proposed designs, circular, to attract all the glances. The piece is available in 3 finishes.
