

**Single rocker with light symbol for push button ivory
Simon 82**

REF. 82018-31

BASIC INFORMATION

DESCRIPTION

Simplicity is not at odds with innovative design. A good example is the individual ivory Rocker for push-button switch of the Simon 82 series, this device can be chosen in six different finishes, so it is recommended to choose a frame with the same baseboard colour as the rocker selected. With dimensions of 55x55 mm, it also includes light symbol. The quality is also one of its features, since it has been manufactured with thermoplastic materials, complying with the UNE-EN 60669-1: 2002 + A1: 2003 + A2: 2009 standards, which allows it to withstand a temperature range of 5 to 40° C and a maximum temperature of -25 to 50° C. However, these advantages do not influence its price, which is the most competitive on the market, making it one of the most demanded rockers for push-button switch on the market today.

FINISH

Ivory

MATERIAL

Plastic

PACKAGING CONTENTS

Single rocker and fastening bracket

SYMBOL

Light

COMPATIBILITY

Simon 75 and Simon 77 mechanisms

ETIM CLASS

EC000011

REMARKS

Available in 6 finishes. It is recommended to choose a frame with a base the same colour as the selected rocker.
