

Single rocker for double-pole switch with I/O symbol white Simon 75

REF. 75031-38

BASIC INFORMATION

DESCRIPTION

The individual Rocker for double-pole switch with I / O engraving in white of the Simon 75 series is one of the most demanded products in this range for installation in public and private buildings such as the headquarters of offices, commercial establishments or medical centres. This is a rocker that stands out for its simple and quick installation in surface-mounted and recessed in the wall that fulfils one of the objectives of the Simon 75 series: To make available to users, both professional and private, the mechanisms, frames, trims and rockers that are characterized by the best value for money, a damp cloth is sufficient to clean its structure and prevent it from oxidation due to environmental conditions. It is available in six finishes, so it is recommended to choose a frame with the same baseboard colour as the rocker selected, and includes I / O engraving (input / output).
