Blind cover for 2 elements white Simon 500 Cima

REF. **50000800-030**

BASIC INFORMATION

DESCRIPTION

This is a blind cover of high quality that allows us to a future expansion according to our needs. A version of 2 elements with a white colour finish of the series Simon 500 Cima. It has dimensions of 100 x 50 x 11 millimetres and it is suitable for flush mounting or installed on the surface-mounted. Simon offers us an extra security against the fires to manufacture this cover in halogen-free thermoplastic, a material that guarantees the no-propagation of the flame and prevents the emergence of fumes toxic in case of fire. The series of Simon 500 Cima is characterized by being a 50% faster installation, as it offers us a new click-terminals connection. It does not need to strip cables, insert, tighten and ready. Simon offers, once again, new solutions for a consumer increasingly demanding, offering quality products at a very competitive price.

FINISH

White

COMPATIBILITY

Simon 500 Cima enclosures
