Frame for intermediate piece for 3 elements white without claws and with frame holder Simon 27 Play

REF. **2701630-030**

BASIC INFORMATION

DESCRIPTION

This Frame of the Simon 27 Play range, it is designed as intermediate piece of three elements without claws electrical. It is presented in a traditional white colour, it will combine perfectly in any room. Its installation is very simple and it is suitable both for surface-mounted or wall or to be recessed. It can also be position, place vertically or horizontally, according to the needs of the place and the tastes of the user. It measures 85 x 23 millimetres and is made of thermoset material, being the frame-holder metal. These materials are of high quality and give the product a hardness extra, which means that it is not possible to damage easily by scratches and knocks. It is also capable of operating at temperatures very low and high, extending the service life of the article. Its maintenance is very simple and is to use a cloth slightly moistened in water with soap. It does not need any product chemical of cleaning, it even could damage it.
