

Double rocker for switches white Simon 82

REF. 82025-30

BASIC INFORMATION

DESCRIPTION

Double rocker for control mechanisms, it has a simple and versatile finish is white in colour and is part of the Simon 82 series. The white finish is the perfect for those who they bet by simplicity and design stylish and sober. However, the rocker with viewer is available in six finishes, with colors much more daring. It is recommended position, place the frame in the same tone as the baseboard of the rocker that has been installed. It measures 55 x 55 millimetres and it is a double version, for a single element, has a signaling function and can be installed on the surface-mounted or recessed. Thanks to the material of security used in its manufacture, withstands temperatures very varied (between -25 to + 50 degrees centigrade). Its design is based on the thermoset components of the highest quality, which increases the security. It does not include engraving of any kind on its design.
