

Single rocker with viewer and light symbol for push button aluminium Simon 75

REF. 75016-33

BASIC INFORMATION

DESCRIPTION

If we talk about design, as the saying goes, variety is about taste. Choosing will always give us more choice. The Simon 75 series consists of four parts that offer an answer in the form of solutions to all of them: Mechanisms, frames, trims and the rocker. In this last group we have the individual Rocker with viewfinder for push-button switch in aluminium colour, the features of this piece allow the product to recess or place it on the surface-mounted depending on the needs of each space, available in six finishes in the same frame or rocker, it allows you to choose colour in these intermediate parts. This rocker includes light symbol with an innovative design that gives a precise answer to the new market demands, offering numerous functions that provide comfort and security to the different rooms of homes and companies.
