Angled voice and data plate with dust cover for 1 element with 1 RJ45 category 6 UTP graphite Simon 500 Cima

REF. **50002081-038**

BASIC INFORMATION

DESCRIPTION

Each day are more and more professionals in the sector of the electricity that include in its projects in new construction and refurbishment projects in homes, the angled voice and data plate with dust cover for an element with a RJ45 connector category 6 UTP in graphite finish of the Simon 500 Cima series. The resistance and functionality is one of the keys of this accessory that has dimensions of 50 x 50 x 42,5 mm and a cabling 22-24 AWG. This plate stands out for its easy maintenance, which translates into a long life span in time with its qualities as the first day. Metallic components with self-extinguishing and halogen-free thermoplastic insulation. make up its structure, which guarantees no flame propagation in case of fire and the low toxicity in case of smoke. Also, this product includes clips for fastening in vertical and horizontal enclosures without the need for an adaptor.
