

Plate for electronic rotary mechanisms with built-in red light graphite Simon 82

REF. 82050-38

BASIC INFORMATION

DESCRIPTION

With dimensions of 55x55 mm and manufactured in thermoplastic, in compliance with the current regulation, this plate for rotating electronic devices with luminous incorporated red graphite colour is included in the Simon 82 series. The product is available in 6 different finishes, when choosing a frame, it is recommended to choose the same colour as the selected plate for a better effect. Also, the plate is suitable for surface and flush mounting, so that its installation is simple and straightforward. It is characterized by a high resistance to extreme temperatures (it can withstand between -25 and 50°), although the ideal is that the ambience temperature ranges between 5 and 40° for an optimal performance. For maintenance and cleaning, it is advisable to use a soft cloth slightly moistened in soapy water, on the other hand, it should be avoided abrasive cloths and / or abrasive cleaners containing chlorine.
