# Key for dimmer gloss white Simon 100

REF. **10001020-130**

## BASIC INFORMATION

### DESCRIPTION

White cover with quartz effect from the Simon 100 series for adjustable switch. The Simon 100 series is the first collection to integrate the iO Simon system, a world based on the "Internet of things", in which switches go from analog to digital. This is what we allow you to interconnect the devices you want and give spaces a new dimension. It has a half element and complies with the applicable European standards EN 60669-2-1: 2004 + A1: 2009 + A12: 2010; EN 50581: 2012. In addition, it is a cover which is suitable for recessed mounting, in places where the temperature is between 0 and 40 ◆ C approximately, although it can withstand extreme temperatures of - 25 to 75 ◆ C, more or less. Socket is made of PMMA with a thermoplastic base, a very simple material to keep it in perfect condition, as it suffices to wipe it with a soft cloth and slightly moistened with soapy water.

### FINISH

Gloss white

### COMPATIBILITY

Mechanisms Simon 100

### ETIM CLASS

EC000011

### MATERIAL

Plastic

### PACKAGING CONTENTS

Touch

## TECHNICAL INFORMATION

### AVAILABLE MARKET
CE

### NUMBER OF POSSIBLE ELEMENTS
Half element

### INDICATOR FUNCTION
Yes

### IP RATING
IP20

### MAINTENANCE
Clean with a soft, dry cloth. Do not use abrasive cloths or cleaning products that contain chlorine.

### OPERATING TEMPERATURE RANGE (°C)
0 - 40 °C

### STORAGE TEMPERATURE RANGE (°C)
-25 - 75 °C

### VERSION
Unique

## INSTALLATION AND MAINTENANCE

### INSTALLATION TYPE
Suitable for flush mounting

## REGULATIONS

### REGULATIONS
