REF. **82018-30**

simon

BASIC INFORMATION

DESCRIPTION

The individual rocker with light symbol for push-button switch white Simon 82 offers the best performance and durability. It is made of thermoset material to ensure the security of electrical devices. Available in six finishes, it is recommended to choose the frame with the same colour as the rocker and the baseboard selected to achieve a perfect system integration. Simple and elegant lines, with light symbol for correct identification in dark conditions. Its ultra-flat profile allows the rocker with easily and enables smooth and stylish integration with the environment. The design unites efficiency in this product line that combines reliability with elegance. Easy and safe installation, suitable for flush mounting on the wall or on the surface-mounted. The simplicity of the design of the individual rocker with light symbol for push-button switch Simon 82 allows easy maintenance and cleaning of the complete installation on both surface-mounted and wall.
