

Frame (with visible screws) for 1 element with claws and without centre frame ivory Simon 27

REF. 27610-32

BASIC INFORMATION

DESCRIPTION

This frame with exposed screws is suitable for 1 wide module or 2 smaller modules. Includes claws and has no frame-holder. In ivory colour, the piece is included in the Simon 27 series, a collection that is characterized by its simple lines and functionality. The series is indicated for those who run away from the overloaded and bet on sober mechanisms. The frame is made of thermoplastic and is suitable to be recessed, it stands out for its resistance to extreme temperatures, although it is preferable to install it in environments with a temperature range between 5 and 40°. Due to its design, it is recommended to combine the frame with rockers and covers of colour ivory. The piece measures 82x82 mm, so it can be installed horizontally and vertically. For optimum maintenance, remember to use a soft cloth slightly moistened in soapy water and avoid abrasive cleaners.

FINISH

Ivory

MATERIAL

Plastic

COMPATIBILITY

Simon 75, Simon 26, Simon 27
Play and Simon 75* mechanisms
