Pack of 10 claws for sockets Simon 75

REF. **7500999-039**

BASIC INFORMATION

DESCRIPTION

The pack of 10 claws for Simon 75 sockets is a fixing accessory designed for the secure installation of electrical mechanisms in flush-mounted boxes without screws. These metal claws allow for a firm grip of the mechanism to the box, ensuring stability and correct alignment during installation. Compatible with sockets and mechanisms of the Simon 75 series, this set of claws is suitable for assembly, replacement, or maintenance work in residential and tertiary electrical installations. Its design is adapted to the original mechanisms, ensuring mechanical compatibility and precise fit. The pack includes 10 fixing claws for Simon 75 mechanisms, facilitating the installation of socket bases, switches, two-way switches, and other compatible devices. It is a practical solution for professional installers who require original replacements to ensure a strong and durable fixing. These claws for Simon 75 sockets are compatible with mechanisms from the Simon 75 Series, integrating into renovation projects or new electrical installations where reliable fixing is required in accordance with the manufacturer's standards.
