

Single rocker with light symbol for push button aluminium Simon 75

REF. 75018-33

BASIC INFORMATION

DESCRIPTION

One of the most important things that will prevent us from wasting time and money is the compatibility between the different elements that make up the electrical circuits in our homes or businesses. The individual Rocker with light symbol for push-button switch in aluminium colour included in the Simon 75 series, fulfils this task perfectly, as it is a product that can be combined with other articles included in the wide range Simon. Available in six finishes, which allows you to choose the frame with the same baseboard colour, this rocker is suitable both for surface or flush mounting and has a very simple installation. Its price makes it one of the most attractive rockers on the market, which added to its quality, makes it perfect for all types of budgets. Made with the best thermoset materials, this rocker is a safe bet for any electrical installation.
