

Interchangeable case for 4 elements frame yellow Simon 27 Play

REF. 2700647-062

BASIC INFORMATION

DESCRIPTION

Quality and security are two adjectives that describe perfectly the interchangeable cover for frame for 4 elements in yellow colour of the Simon 27 Play series, this product has been manufactured with the best thermoplastic materials, components that provide great resistance to knocks and scratches, as well as to environments with high and low temperatures, easy to install in a matter of minutes and without the need for previous professional knowledge, the key is that it has a standard size of 86x306 mm. In cases where more connections are required, this interchangeable sleeve is designed for frames of eight modules, being ideal for rockers and covers, white colour. Also, this piece stands out for its high quality, functionality and an irresistible price-performance ratio. Simon 27 Play products stand out for their great functionality, allowing to centralize several elements and make a very practical use of them.
