

Trim frame for 1 element pink Simon 27

REF. 27959-31

BASIC INFORMATION

DESCRIPTION

The Trim frame of the Simon 27 range is perfect to give a cheerful and fun touch to any room in which it is. It is designed for mechanisms that provide energy to an element or electrical equipment and has dimensions of 90 x 90 millimetres. In addition, always trying to facilitate the task of users, this frame is installed in a very simple way by recessing and allows you to do it in a horizontal or vertical position, depending on the tastes injury or the needs of the place. Its thermoplastic material is very resistant and quality. Therefore, the frame resists without problems temperatures very high or very low, on the other hand, without losing functionality. This material, it also gives hardness to the frame so that withstand challenges external as knocks or scratches. In addition, its maintenance does not demands of any product specific and will be performed using a soft cloth slightly dampened with soap and water.
