

**Flat voice and data plate without dust cover 1 element for
2 RJ45 compatible other manufacturers white Simon 500
Cima**

REF. 50000189-030

BASIC INFORMATION

DESCRIPTION

Plate of voice and data of the Simon 500 Cima series. It is a plate completely plate without dust shutter and with an element for one or two RJ45 connectors. The most characteristic of this product is that it is compatible with other manufacturers. Its finish is white, makes it a plate of voice and data very versatile to be placed in an infinite number of spaces. This is the individual plate for a module, it is possible to set it in horizontal or vertical enclosures without buying adapters for this, as it includes the clips needed for installation in this type of modules, its dimensions are very lamps (50 x50 x 11 mm). The manufacture of the voice and data plates of the Simon 500 Cima series commitment to the security, resort to halogen-free thermoplastic materials. These components of prevent the propagation of the fire in case of fire. This plate does not require any type of maintenance, you just need to clean it with a soft, clean cloth and dry and avoid contact with chemical products.
