

Frame square for 3 elements graphite Simon 88

REF. 88632-38

BASIC INFORMATION

DESCRIPTION

The Frame of the series Simon 88 is rectangular shape and perfect for sockets of three elements, it measures 85 x 227 millimetres. This model is presented in a beautiful graphite colour, so it is advisable to combine it with rockers and covers with the same finish, which endow of modernity to the room where it is. Its installation is very simple, allowing you to do it directly in surface-mounted or recessed and can also be mounted vertically or horizontally, so that it is a product that is very adaptable and versatile. The material of which it is made this frame Simon 88 are of high quality, specifically, its elements are made of thermoplastic, which provides the article a high resistance. In this way, the frame can withstand temperatures very cool or hot ranging from -25 to + 50 degrees centigrade. In this regard, the brand Simon, not only commitment to the functionality of its products and its aesthetic and minimalist design in accordance with the today, but also gives importance to the security.
