

Template for installation of flush mount boxes for hollow partition wall

REF. 31702-61

BASIC INFORMATION

DESCRIPTION

The series Simon 31 is characterized by offering the most effective solutions to the needs you have in electrical and electronic installations in private homes, commercial premises and corporate headquarters. One of the most demanded products, for both individuals and professionals in the sector, it is the Template for the installation of boxes for hollow partition wall flush mounted. This is an element that supports a wire cross section of 1.5 to 2.5 mm One of the great advantages of this accessory is the quality of the thermoplastic materials with which it has been manufactured, with an innovative design where they highlight the avant-garde lines of its structure. His price? The most competitive in the market, which allows it to be included in projects with all kinds of budgets. Simon recommends its use for the installation of flush mounted boxes for hollow walls of 2, 3 and 4 elements.
