Single rocker combinable with viewers 82972 and 82982 champagne Simon 82

REF. **82013-34**

BASIC INFORMATION

DESCRIPTION

The compatibility between the different elements that make up the electrical circuits in our homes or companies is very important. Finding the right parts will save us a lot of time and money by looking for the items in one place or another to make them compatible. The individual rocker for the Simon 82 series, fulfils this task perfectly, as it is a product that can be combined with the 82972 and 82982 visors included in the wide Simon range. Available in six finishes, it is a neutral rocker push-button switch in individual version with dimensions of 55x55 mm, being suitable both for surface or flush mounting, its price makes it one of the most atractivas rockers on the market, which adds to its quality. Manufactured with the best thermoplastic materials, this neutral rocker push-button switch is a sure bet for any electrical installation.
