IP66 watertight raised floor box kit with 2 french socket outlets + 1 narrow blind cover and sheath

REF. **KGH220RF/72**

BASIC INFORMATION

DESCRIPTION

Simon completely renews its range of watertight floor boxes for indoor and outdoor environments. This is a kit that includes the manual closing mechanism frame with 2 French sockets and 1 K45 blank plate measuring 22.5x45mm, to be integrated into the included tub for installation in raised floors with cutting dimensions of 174 x 125 mm. The product design, combined with its stainless steel mechanism frame, achieves a robust, solid, and secure installation as it can withstand a water jet of 1 kg/cm^2 from any direction, reaching an IP66 protection rating when the lid is closed. It also supports a maximum load of 1500 kg and has an IK08 impact resistance. It maintains an optimal bend radius for wiring in high-category voice and data connections. Our accessory for plug connection with a closed lid is available, allowing us to keep our connections active with an IP54 (see reference KFA1001), the ability to level our box in case of irregular flooring (see reference KFA1003), or the capability to chain multiple boxes together (see reference KFA1002).
