

Baseboard for columns and mini columns with 1 side Simon 500 Cima

REF. 52551803-038

BASIC INFORMATION

DESCRIPTION

With dimensions of 160 x 120 x 27 mm, the Baseboard for columns and mini-columns one side is one of the most demanded accessories of the Simon 500 Cima series. One of the reasons this success is the halogen-free thermoplastic material with which it has been designed. This compound guarantees no flame propagation in case of fire and the low toxicity in case of smoke, which makes it a baseboard that provides high security to the electrical and electronic installations. The shape of the baseboard allows integration of the mini-column with the floor trunking 85 x 18 mm, with all the advantages that this means. Moreover, its competitive price allows it to be included on masonry new projects in homes or renovation projects with all kinds of budgets.
