

Single rocker with viewer and light symbol for push button ivory Simon 75

REF. 75016-31

BASIC INFORMATION

DESCRIPTION

The individual rocker with viewer and light symbol for push-button switch Simon 75 has 6 different finishes, it is recommended to choose the frame with the same colour of the selected rocker. It can be installed in 2 different ways, surface mounting or flush mounting. The most common temperature ranges of the individual rocker with viewer and light symbol are 5 to 40° with a limit ranging from -25 to 50°. This type of rocker applies the regulation UNE-EN 60669-1:2002 + A1:2003 + A2:2009. The main manufacturing material is thermostable with a plastic ivory finish. The rocker with viewfinder and light symbol is of individual version, it also contains an element, but not modules. This model does not include the signaling function, in addition this model of blind cover includes the light type engraving. It is recommended for the correct maintenance of the rocker with viewfinder and engraving to use a soft cloth slightly moistened in soapy water to clean it properly.
