

Adjustable T connector with LH outside earth

REF. 89941038-039

BASIC INFORMATION

DESCRIPTION

With a simple and comfortable installation in 3-phase rail, the T with LH outdoor left adjustable in black finish of Simon allows us to have the conditions of indoor lighting desired in each situation, regardless of the dimensions and features architectural requirements of each space. Hardness, resistance and durability over time, are three of its most outstanding qualities of this element. Its low and competitive price is another of the great attractions of this product that have made it one of the most sold of Simon between individuals and professionals in the sector of electrical and the construction. Campus universitarios and residential centres, for the development of activities sports and leisure, hotels and holiday resorts or medical centres and centers are some of the public and private spaces that already enjoy the advantages of having this connector in their electrical installations.
