

Thermoplastic frame for 2 elements ivory Simon 31

REF. 31620-31

BASIC INFORMATION

DESCRIPTION

Ivory colour frame designed for 2 elements of the Simon 31 series. It is an article that is manufactured in thermoplastic material, highly resistant against scratches and extreme temperatures. For optimum preservation, it is ideal to install the frame in environments with a temperature of between 16 and 40°C. Measuring 152x80 mm, this frame has been manufactured according to strict regulations with current legislation. Another of its advantages is that it can be installed vertically or horizontally. It is advisable to combine the frame with rockers and covers with ivory finish for optimum results. For the maintenance of this piece, it is sufficient to use a soft cloth moistened in soapy water. The designs of the Simon 31 series are timeless and functional, simple lines and easily, which can be combined to fit perfectly into any ambience.

FINISH

Ivory
