

Single rocker with viewer and bell symbol for push button aluminium Simon 75

REF. 75015-33

BASIC INFORMATION

DESCRIPTION

This individual rocker with viewer of the Simon 75 series includes a current bell engraving for push-button switch in its design. The current for this product is available in a total of six finishes. For a stylish and functional appearance, it is recommended to install the frame in the same colour as the rocker baseboard of the chosen. It has a single element and is the individual version, does not include the signaling function, this rocker with a stylish finished in matt aluminium. It is made of thermoset plastic, a material that provides quality and security to the product. It can withstand temperature intervals ends (between -25 to + 50 degrees centigrade). It can be installed in surface-mounted or recessed. For proper maintenance, to extend the service life of the rocker Simon, it is advisable to clean the product with a soft dampened in a little soapy water neutral, without, very aggressive cleaners containing chlorine.
