Two-pole socket outlet 16A 250V~ with safety device and screw terminal connection champagne Simon 31

REF. **31431-64**

BASIC INFORMATION

DESCRIPTION

Two-pole socket outlet, current 16 A / 250V. has a safety device and its rocker operation is screwed. It is the socket outlet champagne finish of the Simon 31 series. It works by insertion. As important characteristic of this power socket of the Simon 31 series, it should be noted that each one of the covers include the child protection function. In this way is achieved to increase the security of great. Also, the socket outlet is made of metal components with thermoplastic insulation isolated. The trim is equipped with components of metallized thermoplastic. Thanks to this the temperatures that can withstand the outlet are very variables and extreme temperatures (-25 to + 59 degrees centigrade). This is the individual version, for one element and two modules. Supports a cable section 2.5 millimetres and require stripping of wire 13 millimetres. The exact dimensions of the Simon 31 socket outlet are 64 x 65 millimetres.
