Front face kit for 1 element with 1 computer connector RJ45 category 6 UTP with gloss white adapter Simon 100

REF. **10020106-130**

BASIC INFORMATION

DESCRIPTION

The front face kit for one element with a single category 6 UTP RJ45 computer connector, also incorporates a color white adapter from the Simon 100 series; Simon 100 series has prepared an infinite number of kits for mechanisms, which makes the installation of these components even easier than the installation of individual parts. With this kit you will forget to buy any component, because you will have the connection available for the RJ45 sockets. It is a line which wishes to improve the user-friendliness of its components with the customer and which also integrates a very usable interface, integrating the heartbeat system which facilitates the interaction with the user. The comfort offered by this room is that you won't have to combine different rooms with each other, but you will have the convenience of installing a single product in your home.
