Single rocker with viewer aluminium Simon 27 Scudo

REF. **2705011-033**

BASIC INFORMATION

DESCRIPTION

This individual rocker with viewer, light of the Simon 27 Scudo series has a compact frame design that acts as protection against all types of knocks. Complies with all the features of Simon 27. We have three different finishes and are manufactured in zamak (zinc alloy with aluminium, magnesium and copper), which enables a high degree of resistance to all kinds of impacts or knocks, to deterioration over time and oxidation. It is a very interesting option for anyone looking for simplicity, effectiveness and good price, being a rocker that can be applied in all types of infrastructure. It has excellent performance in high temperatures and also in low temperatures (-25 to 50º C). This rocker is valid for all types of infrastructures: Hotels, hospitals, schools or hotel and catering businesses, among others, and is compatible with older systems in this series. If you need quality at a good price, this is a good alternative.
